

Description

The system provided with Robotic Underbody Carriage wash gantry with nine Oscillating nozzles on moving gantry covering every corner of the under carriage of vehicle. It takes not more than a minute to wash the under carriage and achieves good cleaning in the dirtiest of vehicle.

Technical Specification

High Pressure Triple Ceramic Plunger Pump	20/42 Ltr./mi
Nozzle Pressure	200bar
Power	7.5Hp/10Hp
Time required for underbody wash	1.5 min p/vehicle
Washing Length	6 mtr
Total No of Nozzle	3/9 Nozzle
Automation Type	fully automatic panel
Water Proof Standard Switch	ip65
Gantry Type	Robotic
